WaggleKin: Product Details, Photos & Accuracy Pass

Date: 13 November 2026

Scope: every live product on wagglekin.com: 152 CJ Dropshipping products and 43 TopDawg products.

1. What was done

Area	Result
Full supplier details (CJ)	All 152 live CJ products rewritten from the full CJ listing, each in the same layout: intro, Features, Specifications table, Size guide, How to use, Care, What's in the box, Good to know. Only the sections with source data are shown.
Independent check	Each of the 152 products was then re-checked by a second agent against CJ's data. 70 were already right; 78 were corrected (unit conversions, invented wording, shipping weights shown as item weights, missing features). The other 3 can't be fixed by us: the fountain has no power details from CJ, and the two photo products have no photo collection (section 2).
Units for US shoppers	Every measurement is given in both metric and US units, computed rather than estimated: cm/in, kg/lb, g/oz, ml/fl oz. Chinese "jin" sizing is converted too.
Photos added	202 useful supplier photos added: size charts, dimension diagrams, how-to graphics and clean product shots. Each was looked at first. Rejected: other sellers' logos, "fast delivery" banners, Chinese text, wrong colours and claim badges.
Misleading photos removed	381 photos taken off product galleries. They showed colours, styles, sizes or bundles you don't sell, other brands' logos (VEVOR, TAILUP, petgravity, "The Perfect Part"), "US Seller" banners, health or safety claims, crude text, an unrelated camera tripod, or duplicates. **Nothing was deleted:** every file is still in Shopify → Content → Files and can be re-attached. An undo list is kept.
Main photos fixed	46 products had a main (first) image showing something you don't sell. Each now leads with the version you do sell.
Variant photos fixed	The backpack (TAILUP logo), tactical collar ("US Seller" banner) and cat collar (red box drawn on the photo) now use clean photos for their colour options.
Removed from text	Supplier names, "eBay", shipping and warehouse promises, Chinese text, "100% brand new" filler, keyword stuffing. Medical claims (anxiety, arthritis, wounds, "vet recommended"). Absolute safety claims ("escape-proof" became "escape-resistant"). "Biodegradable" claims, which carry FTC Green Guides and California risk. Unconfirmed "wool" fibre claims (US wool-labelling law).
TopDawg (45 products)	Descriptions cleaned and laid out the same way. Removed: broken characters (`_x005F_x000D_`, `??`), disease claims (diabetes, arthritis, heart/kidney, epilepsy), casino spam, unverifiable awards. **No facts were added.** A second check confirmed nothing was invented or lost.
Description styling	Tables, headings and lists now look clean on phones and desktop. *(This is a theme change, waiting for your OK to go live; see §3.)*

2. Fixed straight away (the risky items)

- **Custom Engraved Bone ID Tag:** the main photo showed crude sample engraving. Removed; a clean engraved tag is now the main photo.
- **Long-Handle Litter Scoop:** removed an image with crude wording.

- **Tennis Ball Treat Machine:** CJ has removed this product, so orders couldn't be fulfilled. **Set to Draft.** Find a replacement or delete it.
- **Misleading titles corrected** (web addresses unchanged):

Was	Now	Why
Long Training Dog Leash, …, Padded Handle	Long Training Dog Leash, 6 ft or 23 ft	The photos show a plain webbing loop
Shock-Absorbing Bungee Dog Leash …	Climbing Rope Dog Leash with Foam Handle …	CJ never mentions bungee or stretch
Cordless Cat Water Fountain with Steel Tray, 3L	… with Motion Sensor, 3L	CJ's spec image lists ABS/PC; the tray is white plastic
Calming Donut Bed	Plush Raised-Rim Pet Bed	The CJ item is rectangular, not round
Red & White Striped Cable-Knit Dog Sweater	Red & White Striped Knit Dog Sweater	The stripe version is plain knit
Neoprene Dog Knee Sleeves	Neoprene Front Leg Sleeves for Dogs	CJ's item is a front-leg (elbow) sleeve

- **Confusing option names fixed:**
- "580x290x280 mm" and "600x145x400 mm" (carton sizes) → "One size";
- "D" → "Blue-Gray";
- "Default: 60399003" → "Size: 31.5 in";
- "SIZE" → "Size & Color";
- "2-pack (random designs)" → "2-pack (random colors)";
- "Green Stripe" → "Green Stripe with Santa".

3. Decisions for you

1. **7 personalised products have no way to collect the customer's photo or text.** CJ makes these to order, but the product page has no upload or text field, so an order can't be completed as sold:
2. Custom Pet Photo Pendant Necklace or Keychain
3. Custom Pet Photo Shaped Pillow
4. Pet Photo Projection Paw Bracelet
5. Custom Pet Photo Memorial Night Light
6. Custom Pet Face Socks
7. Custom Engraved Bone Pet ID Tag
8. Engraved Stainless Steel Pet ID Tag

Recommendation: set them to Draft until a personalisation method is set up, either a Shopify personalisation app or a "photo/text" field I can add to the product page, plus a way to pass it to CJ. 2. **Whisper-Quiet Water Fountain:** CJ gives no power details (voltage, plug, cable). Confirm with CJ that it works in the US before promoting it. 3. **3-in-1 Cat Laser Pointer:** CJ says 1 mW (under the US 5 mW limit) but gives no FDA laser-class label. Confirm the unit carries the required label. 4. **Theme update** (description table styling plus all the earlier CRO work): fully tested on the preview theme. Say **"deploy it"** to make it live.

4. Confirm with CJ (the pages avoid claiming these until confirmed)

- **What's in the box:**
- Travel water bottle: is the poop scoop included?
- Claw pooper scooper: is a bag roll included?
- Velvet collar set: is the bow tie included?
- Elbow sleeves: is a scarf included?
- Cat exercise wheel: is a screwdriver included?
- Crate end table: is the privacy curtain included?
- Snowflake sweater "2-Pack": does it ship as two sweaters?
- **Specs:**
- Nail grinder run time: 7 h (shown) or 11 h?
- Stainless litter box length: 60 cm (shown) or 50 cm?
- Enclosed litter box: 48 cm (shown) or 52 cm?
- Potty bells: which colour ships?
- RC chase car: which remote style ships?
- Fibre content of 3 sweaters: they now say "knit yarn".
- **Missing sizes:**
- Rear lift harness: CJ only gives measurements for size S.
- Hi-vis safety vest and bolster couch bed: no size chart at all.
- **Shipping limit:** CJ says the dog-silhouette leash holder can't ship to Hawaii, Alaska, Puerto Rico, US territories or APO/FPO addresses.

5. Products that need better photos

CJ has no more photos of the exact colour or style you sell for these. Where a gallery had to keep a "least-bad" photo of another colour, it's marked ⚠.

- Water-Repellent Softshell Dog Jacket (1 photo)
- Plush Raised-Rim Pet Bed (2)
- 36 in Double-Door Wire Dog Crate (2)
- Christmas Fleece Hoodie (2)
- Reflective Mesh Harness & Leash Set: every option photo carries a "US Seller" banner ⚠
- **Clothing ⚠:**
- Red & White Striped Knit Dog Sweater; Faux-Fur Hooded Parka; Christmas Tree Cat Cloak;
- Black & Red Padded Winter Vest; Classic Cable-Knit Turtleneck; Red Plaid Quilted Jacket;
- Christmas Tree & Deer Turtleneck; Velvet Turtleneck (hairless cats); Bear Ear Hoodie;
- Apple Fleece Hoodie; Reflective Waterproof Raincoat; Lightweight Rain Vest; Calming Wrap Vest.
- **Other ⚠:**
- 2-Level Felt Cat Tower (one photo also shows the 90 cm tower);
- Custom Pet Photo Pendant (necklace photo shows a wolf design);
- Custom Pet Face Socks (low resolution);

- Wide Reflective Camo Collar;
- Unscented Poop Bags (one image has a general eco claim);
- 3-in-1 Travel Water Bottle (teal diagrams; green is sold).

6. TopDawg: fix in TopDawg's Import List

Shopify edits to TopDawg products may be overwritten by TopDawg's sync. The cleaned descriptions were still in place about 1 hour later; re-check after TopDawg's next sync.

- **Option data:**
- "Color: Dry" on 9 Canine Caviar items;
- sizes with no unit ("0.5", "1.75", "3");
- "Pack Of: 8/bale", "50 pcs/pdq" (wholesale boxes);
- "Size: N/A" on Turkey Feet.
- **Thin copy:** 7 Canine Caviar treat boxes share one generic two-sentence text. The Canine Caviar foods have no ingredient list or guaranteed analysis.
- **Titles:** the "SCP …" and "LP …" prefixes; the double spaces in two titles.

7. Undo

- **Removed photos:** each product's record is in the work folder. Re-attach in Shopify → Content → Files, or ask Claude to restore them.
- **Title changes:** listed in §2. The old titles are saved.
